ABOUT HOPE TOWN UNITED

OUR MISSION

Hurricane Dorian has changed The Bahamas forever. If we don't act now, this magnificent archipelago oasis will soon disappear. Hope Town United needs your help to restore the Hope Town Primary School and give back the homes that were lost with our Homes for Hope program. Your participation in the Hope Town United Marlin & Meatfish Tournament will not only restore a sense of normalcy to the community members, but will also ensure that they have resilient infrastructure to withstand storms to come, and that the kids of Hope Town can get the education they deserve. Together, we are revolutionizing the way an island can rebuild in the face of future natural disasters.

CORE PROJECTS

HOPE TOWN PRIMARY SCHOOL

The Hope Town Primary School was completely destroyed by Hurricane Dorian. Rebuilding the school has been one of our top priorities. The quicker the kids are back in the classrooms, the quicker life feels a little more normal. Our two main goals are to preserve the historic structure of the original school and to add more classrooms to the building so more children can attend school right here on the island. With a concrete base, the school can double as a shelter for future storms.

ABOUT HOPE TOWN UNITED

“As one of the dozens of residents who lost our homes to Dorian, words cannot express how much the Homes for Hope Town Program means to our community. Many families have been struggling for almost a year, either displaced or living in tents. Hope Town United recognizes the importance of not just rebuilding, but [also] making sure these homes can withstand the storms to come.”

– Vernon Malone, Owner of Vernon’s Grocery and Upper Crust Bakery and Hope Town Resident

HOMES FOR HOPE

Many who live in Hope Town lost everything after Dorian, including the homes they’ve had for generations. We’re working with Seagate Construction Group, Abaco Construction, and Cronk Duch Architects to rebuild homes that were totally destroyed during the storm. Our focus is to preserve the historic Loyalist design and spirit of the island while constructing a concrete “core” to ensure safety in future storms.
